**Hear what others have to say about their X-Culture Coaching Program experience:**

The X-Culture Coaching program really helped me grow as an International Business student. It showed me that there's a lot to learn and there are more people out there to work with and create a community with, even if they're continents away. It's a great elevation from the student's program and it is very easy to note the growth from the time I started up to now.

***Tsogo, Botswana***

"I started my X-Culture journey as a student in 2017 and last year 2022 I launched the X-Culture project as part of the international business course for my students as an assistant professor at my Institute. It has been a very exciting journey as I have done the X-Culture program both as a student and as a facilitator, these experiences have been truly enriching for me.

By joining the X-Culture coaching program, I wished to contribute to this initiative and mentor the new generation of X-Culture students to successfully complete interesting and dynamic international business consulting projects. I believe I have been able to truly achieve this.

My favorite part about X-Culture Coaching was being able to work and connect with people (students and coaches) worldwide while obtaining valuable international business experience. This coaching program is really a great opportunity and I thank X-Culture for this initiative."

***Harini, India***
